MAINTENANCE

After each use, rinse the product with lukewarm water.

We also recommend using an [erotic cleaner](#), which also helps to remove microscopic dirt.

Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

The product is **water resistant**, so maintenance is very easy.

Water resistant means that splashing water will fall on it, but you **MUST NOT submerge it in water!**

You could only immerse the product in water if it was **waterproof**.

LUBRICATION

Due to the material of the product, you can use [lubricants of any base](#).

DRIVE AND CHARGING

The product is powered by two AAA batteries. For greater endurance, we recommend using alkaline or rechargeable batteries.
