Please note: Never use the masturbator near water or submerge it.

The masturbator is waterproof only for quick maintenance and only when unplugged

When the masturbator is unplugged from electrical power. When operating the masturbator, do not apply pressure to the masturbator with more weight, this could cause permanent damage to the internal mechanical parts.

MAINTENANCE

After each use, rinse the vibrator with lukewarm water and soapy detergent.

You can also use an [erotic cleaner](#), which also helps to remove microscopic dirt.

Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

The masturbator is neither water resistance nor waterproof!

LUBRICATION

Use only [water-based lubricants](#). Other lubricating gels could damage the surface of the aid and it could become sticky.

DRIVE AND CHARGING

The masturbator is powered by a motor that is powered from 230V mains.

STORAGE

Store separately from other erotic aids in a dry and dark place.

PACKAGING CONTENTS

In the package you will find a masturbator with a remote control and a power adapter, including a reduction to the world plugs.
