

DREAM TOYS RAMROD AUTOMATIC WATERPROOF PENIS PUMP

User manual

CONTROL

- 1) To start the pump, hold down the top "power" button on the control panel for approximately 3 seconds.
- 2) Briefly press the left button with the level symbol to turn on the suction. There are 4 power levels to choose from of vacuum pressure - 125, 200, 275 and 350.
- 3) When the pump reaches the level, the suction stops. If the pressure drops by approximately 50 - 100, it resumes the set level.
- 4) To pause pumping, press the "power" button briefly, then press the button again fully to release the vacuum.
- 5) Briefly press the right button with the wave symbol to switch on and change the different automatic suction modes.
- 6) Holding both the left and right buttons simultaneously for 3 seconds switches to manual mode.
- 7) The left button then controls equal pressure intensities, holding the right button then pumps the pressure according to your preference, releasing the button triggers the pressure release, creating your own "automatic rhythm" of suction.
- 8) Then turn the pump off by holding the "power" button for 3 seconds.

MAINTENANCE

After each use, rinse the product with lukewarm water.

We also recommend using an [erotic cleaner](#), which also helps to remove microscopic dirt.

Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

The product is **water resistant**, so maintenance is very easy.

The product can be splashed with water, but you **MUST NOT immerse it in water!**

Waterproof means that you could completely submerge the product in water and enjoy water play.

Due only to the water resistance of the product, this is not possible in this case.

LUBRICATION

Use only [water-based lubricants](#). Other lubricating gels could damage the surface of the aid and it could become sticky.

DRIVE AND CHARGING

The product is powered by an integrated Li-on battery, which is approximately half charged from the factory, but we recommend that you fully charge it before first use.

Charge the battery using the included USB cable, which can be plugged into a phone adapter, PC or powerbank. When charging, the LED flashes and when fully charged, the LED control lights up permanently.

STORAGE

Store separately from other erotic aids in a dry and dark place.

PACKAGING CONTENTS

In the package you will find a vibrator, remote control and magnetic USB cable for charging, CR2032 battery.
