- 3) Turn on the "tongue licking" function and switch the individual rhythms by briefly pressing the button with the "tongue" symbol.
- 4) Turn on the vibrator heating function up to 48°C by pressing the button with the "fire" symbol.
- 5) The masturbator is equipped with a sound unit, to which you must connect headphones to the port located next to the USB power cable port.

MAINTENANCE

After each use, rinse the product with lukewarm water.

We also recommend using an [erotic cleaner](#), which also helps to remove microscopic dirt.

Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

The product is **not water resistant or waterproof! Only the masturbator's sleeve is waterproof.**

LUBRICATION

Use only [water-based lubricants](#). Other lubricating gels could damage the surface of the aid and it could become sticky.

DRIVE AND CHARGING

The product is powered by an integrated battery, which is approximately half charged from the factory, but we recommend that you fully charge it before first use.

Charge the battery using the included USB cable, which can be plugged into a phone adapter, PC or powerbank. When charging, the LED flashes and when fully charged, the LED control lights up permanently.

STORAGE

Store separately from other erotic aids in a dry and dark place.
